Christopher Angoe

Software Engineer

Accra, Ghana · christopher.angoe@amalitech.com · your-portfolio.vercel.app

SUMMARY

Software engineer focused on the front end and product. I turn fuzzy ideas into interfaces people enjoy using, and I care about the details that make software feel good.

EXPERIENCE

Software Engineer · AmaliTech — 2023 — Present

- Build and maintain web applications with React, Next.js, and TypeScript.
- Collaborate across design and product to ship user-facing features end to end.
- Focus on accessibility, performance, and clean, maintainable code.

Frontend Developer (placeholder) · Previous Company — 2021 — 2023

- Replace with a real role — describe the impact, not just the tasks.
- A metric or outcome reads better than a feature list.

EDUCATION

Your University · BSc, Computer Science (placeholder) — 2017 — 2021

SKILLS

TypeScript · React · Next.js · Node.js · Tailwind CSS · Accessibility · UI/UX · Git
